3. ORDER TERMS & CUSTOMER APPROVAL

State Tree reviews customer-supplied files for CNC machinability only. This review does not constitute verification of cabinet design, field dimensions, fit, quantities, construction, or installation requirements.

Customer is responsible for verifying all quantities, submitted files, dimensions, materials, grain direction, machining instructions, and other specifications prior to approval. State Tree is not responsible for errors contained in customer-supplied files or specifications.

Pricing is based on the information and files submitted. Changes to files, materials, quantities, machining requirements, or scope may require revised pricing. Once an approved order has been released to production, changes or cancellations may not be possible.

CUSTOMER APPROVAL

By signing below, I confirm the specifications submitted for this order and approve the quoted price for release to production.
